Notes: [a] Or 'she/it/they'.

[b] Another possible interpretation is: "... evaluation of this first report of SELIM KHAN's".

[c] The Russian word 'MATERIAL' can mean <sup>3</sup>source material, information, documents or even an individual report. The last meaning seems the most appropriate.

[d] In the text this signature is placed at the end of Part I.

[e] Presumably the signature to a second message sent together with internal serial No. 525 under NEW YORK's external serial No. 957. Its beginning should be in the "105 groups unrecovered" above.
